

## Sharon, K7EZB's, Go Box with Solar Charging Capability

This portable Go Box is built in a Dry Box from Cabela's. It contains a radio, battery and Powergate. There is also storage space for the antenna mount, coax and foldable solar panel.

The Epic Powergate manages battery charging from the external 12-v. power supply or from the solar panel.

The LiFePO4 battery weighs only 5.5 pounds and provides 20Ah of power.

Bioenno 12v 20Ah LiFePO4Battery	HRO BLF-1220	\$193
