In your message you mark that you want to commission me and which type of work/works you want. We discuss future picture and I get reference sheets/ref pictures/written description of character(s) from you.

★ Payment methods I accept: **Paypal invoice, Deviantart commission forms, Boosty platform card payments, USDT / USDC (crypto usd payments)**, if you want to try another method ask me! I accept payment plans with receiving 50% of sum after sketch and receiving left amount after picture is done.

★ Work process: after discussing details, I'm making a sketch of future work and send it to you. We're changing main things like colours, poses, composition, emotions etc as you want, and after you accept it, I'm sending you the invoice for 50-100% of work's cost. After receiving payment, I continue working on picture and sending progress to you to accept the process or if I have a question or suggestion to change something. After finishing picture, I'll send you smaller version of it and you'll pay second payment if it was planned and then you'll receive the original size of picture (or right after finishing if you've paid 100% at once).

★ **I will draw:**

Any type of characters - humans, fantasy creatures, neko, anthro animals (furry), feral animals, mecha characters etc! For mecha and robotic themes you desirable should have reference sheets;

I can decline to work with you on discuss stage before you paid without any explanations.

I don't accept refunds after you accepted sketch. Refunding NSFW on paypal also terminates your account so think twice before acting.

I can use any of sketches that weren't picked for your commission as my personal sketch for my characters or for future YCHs (with edits so they don't rely on your character of course). You can buy unrealised sketches if you don't want me to use them.
