

Hi, my name is TyRon I will be assisting all counselors with all groups during summer camp. I am currently a rising junior at Mary Baldwin University studying Elementary Education. I volunteered at Anna's House a number of times during my freshman year(2023/24). I then began working at Anna's as a teaching assistant during my practicum, followed by lead caregiver, and now director of our school year round Omega after school program. At Mary Baldwin, I've acted in a number of plays and become the director of our African American actors guild. The skills I've learned there have made encouraging the use of imagination second nature to me. I am confident in speaking some conversational Spanish which is why I also taught beginner Spanish to some of my classes during my time as a teaching assistant! Another one of my hobbies/skills is singing. I am a member of our on campus gospel choir and I love karaoke, and I can't wait to sing campfire songs!
