

DXGOP Speech

Alright Dixie, what a crowd this is! Lemme hear the DXGOP make some doggone noise!

The crowd cheers enthusiastically. It's the third speaker of the night, but they still have some energy yet.

Now, I never thought I'd be at a Republican convention. I thought I was a Democrat, through and through. I thought I'd be in blue all my life. Well, Dixie, look where I am now! I'm speaking to thousands of you, members of the party that represents freedom, strength, and responsibility!

Before I get on with my speech, I'd like to thank Seldom for introducing me. The story of my friendship with Seldom is an unlikely one. We had an absolute slugfest of a Senate race. Yet throughout our race, we tried to keep things *civil*. We stayed above the level of personal, irresponsible, and disrespectful politicking. She had good ideas, and a strong number of Dixians believed in them.

She and I share beliefs in liberty, in the American right to bear arms, in the fact that the government should stay OUT of our social lives, and that we need greater accountability. We've worked together since she joined the House and I, the Senate. We've represented the State of Dixie and its people, and we won't stop anytime soon. We will be **warriors** for Dixian interests in Washington D.C. Thanks, Seldom, for having me here.

Now, I'm here to tell my party what I've been up to. I know many of you may not have a fantastic opinion of me. I was a Democrat, and a lot of you may hold grudges against me for voting on bad pieces of legislation. But as a Republican, I've been fighting the Democrat-Socialist radical agenda. Starting with the [Green New Deal Repair Act](#), and continuing

by leading the charge for American freedoms [at home](#) and [abroad](#), I've been working to prevent the Democrat trifecta from ruining everything America stands for. Fiscal responsibility. Patriotism. Rewarding hard work and innovation. Leadership of the free world.

We know, Dixie, that handouts aren't prosperity. Socialism isn't prosperity. Totalitarianism isn't prosperity.

Real prosperity is the right to be paid fairly for your hard work. Real prosperity is when a young person's innovation and dedication is respected, and compensated. Real prosperity, Dixie, is when a person can truly achieve the American Dream.

Under the GOP's economic plan for America's small businesses, sky's the limit.

An econ grad with an eye for business could start a firm of her own, and avoid all the Democratic red tape. She could make money and pay her employees fairly, creating jobs and bringing money to her family.

An HVAC tech with a few of his buddies could start his own company. He could expand, and improve on his business, providing high-quality service to people in his community.

A farmer trying to grow an ambitious crop could rely on low seed prices, less farming regulations, and more independence to help him and millions of other patriots feed America.

Ladies and gentlemen, and all our NB friends, their success is our success. Their happiness is our happiness. This is the vision of the Dixie GOP.

We envision a world where the government's spending doesn't cripple our children as soon as they are born, forcing them to bear the burden of the Government's debt.

We envision a world where they can be birthed into a nation in which the supposedly progressive policies of radicals in government don't hinder their parents' ability to put food on the table.

Prosperity for all, responsibility from the Government, and accountability from our elected officials. That's what the Dixie GOP strives and always will strive for.

One person who embodies these values is here today. He's been a faithful servant to the people of Dixie for a very long time. He was House Minority Whip in Congress, and now works alongside our favorite Governor.

Ladies and gentlemen, binary and nonbinary friends alike, it is my great honor and privilege to invite Dixie Lieutenant Governor Cstep_4 to address us.
