

20x20 League

This is a 3 round league played on TTS held over 6 weeks using the 20x20 missions which can be found here <http://www.data-sphere.net/infinity-mission-system-20x20-version-4-1/>

This league is being hosted on "infinity the discord" <https://discord.gg/aub5J35>

Lists will be 300 pts

Retreat Rules will not be used

Strategic use of command tokens cannot reduce a list's total order pool below ten regular and irregular orders total

Mission objectives will be randomised each round

Players will be free to make a new list for each round and a pairing of players select the table they would like to play on

We will be using Swiss pairings generated by challonge <https://challonge.com/suv5wwsw>

Final standings and winner will be determined via the normal ITS scoring.
