A Better Way *Joe Solo ft.Commoners Choir*

When it's 'Screw the many, we're the few!'
There has to be a better way
When there's nurses in the food bank queue
There has to be a better way
When your wage has gone just paying the bills
There has to be a better way
But the rich are getting richer still
There has to be a better way

There has to be a better way
There has to be a better way than this
There has to be a better way
There has to be a better way than this

When it's politicians fuel the hate
There has to be a better way
When your brains are trained to take the bait
There has to be a better way
When it's empty pockets, empty shelves
There has to be a better way
When they're turning us against ourselves
There has to be a better way

Chorus

When we're letting people drown at sea
There has to be a better way
From our 'civilised democracy'
There has to be a better way
Debate opinion hide the facts
There has to be a better way
With all that front you better watch your backs
There has to be a better way

Chorus

When all that's left is you and me
There has to be a better way
And the lessons learned from history
There has to be a better way
If changes ever came to pass
There has to be a better way
It's cos we stood united as a Class
There has to be a better way

Chorus

So raise your arm into the air
And clench your fingers til they form a fist
