Preamble to Town Hall Meetings:

A note regarding the ERA's membership process: Presentations on the agenda below are often about people and organizations that are being considered for membership in the ERA. Once someone has presented at a Town Hall meeting, any member may raise concerns or objections regarding their membership to Jon Schull (jschull@EcoRestorationAlliance.org) or anyone else on the ERA board. If no concerns or objections are raised within a week of the presentation, the presenter is considered to be accepted as a member. If any concerns or objections are raised, the board will then consider the issues raised, and if needed, vote as to whether the entity will be accepted as a member. More detail [here](#).
