- Register [HERE](#)

What are We Learning About?

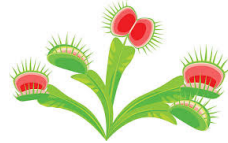

Reading/ELA: We are reviewing routines from previous years so when we get into our guided reading groups we remember the expectations.

Math: We are practicing with different strategies to use during large digit multiplication problems.

Explanation of Strategies [Here](#)

- Open Number Line
- Tile Array
- Area Model
- Ratio Table

Science: We are about to be up and running with our first science unit: Plants and Animals. We also now have a Venus fly trap classroom pet! How cool is that!?!?

Social Studies: We will focus on Science for the first few weeks of the trimester and then change to Social Studies. I think this will be more efficient, as time to get both in everyday is a challenge.
