

Kohaku Nene Car Incident

On August 27th, 2024, Japanese VTuber Kohaku Nene tweeted at 11:19 PM JST / 10:19 AM EST that she had been hit by a car and that she had been hospitalized for a while. This prevents her from carrying out future VTubing activities for the time being.

This document will list her tweets in chronological order. Times will be listed in Japanese Standard Time.

All of these have been translated through DeepL, and I am not a translator, so the translations may not be perfect.

Please note that I am not in contact with Kohaku Nene or any other parties involved. I am simply translating the events that transpired as a concerned fan of hers.

Tweets regarding this incident have been deleted. The pixivFANBOX post linked later in the document remains public.

I've been hospitalized for a while after being hit by a car, so I can't contact you or work on various projects.

I'm sorry I can't write well. I won't be able to do the limited distribution at the end of the month, the recording of the ongoing project, or the commemorative distribution next month.

She continues to tweet on her sub account, @khk_2nd, where she goes into detail about the events that occurred when this happened.

I've been run over twice in a row for something I didn't do, treated in extreme pain, and even now I can't sleep because I'm in so much pain. It's just too much

I will hear about the hospitalization and surgery as soon as possible, so I will report back. Sorry about that

I was in a panic of fear and pain yesterday, but I woke up from my fainting sleep and calmed down a bit! I'm a snow leopard 🐆✨!

Anyway, please forgive me for the messed up writing as I was in a hurry to get the word out that I couldn't work or do any activities (٧ ٧ - ٧ ٧) 🙏

I've been crying a lot for a long time, and just from the few words I could hear, [I have] multiple fractures. I'm too scared to hear the details today, but I'll do my best... ʘ > ~ < ʘ 🙏

Nene appears to have fractured some bones as a result of this incident.

I'm sure today's discussion will give us a better idea of what to expect and what the schedule will be like. I'll be contacting everyone tonight to let them know what's going to happen 🙏🙏
Thank goodness my iPhone was unharmed!

Nene's phone was undamaged in this incident. She uses this to later recount the events more accurately.

What does it mean that [I] was hit by a car but survived and that [I] was run over twice...? I'm sure you're probably wondering, so I'll give you a quick explanation (°. _ .°)° °.

Nene provided an image from Notes about what occurred.

1. Enter the parking lot to go shopping at the supermarket (You must enter the parking lot to enter the premises from the sidewalk!)
2. An old man returning from the supermarket drives his car towards Nene and hits her diagonally (first time)
3. He stops the car with the tire on his feet and gets out.
 - a. He cries and screams for them to move, and after a while they finally move it.
4. After getting out of the car once more, the old man gets in the car again and charges at the fallen Nene (second time)
 - a. He said that he tried to move the car far away, but he panicked and mistook the accelerator for the reverse! He kept shouting.

After that, the people around me called the police and an ambulance, and now...

Nene explains that she was hit, seemingly on accident, by an elderly man when she was going to the supermarket.

Announcement on pixivFANBOX! is now available to the public!

I wrote a story about the current situation - the future in a hurry: 🖋️

Please read it if you have time 🙏💬,,.

(Please note that there are a few painful expressions: ⚠️)

This post is from her about the current situation.

The Post from pixivFANBOX

As translated through DeepL;

Good evening! I am Kohaku Nene 🍷❄️

This time, I have an announcement to all of you who have always supported us.

I posted the following on X (formerly Twitter) recently on 8/27, and in this article I would like to talk again about the current situation - the future!

I have to hurry up and let you know that we will not be able to do our activities and work! I apologize for the strange sentence, as it was posted while my mind and body were still unsettled after several hours of first aid... 😞💬,,.

Current Condition

As we have talked about to some extent on Nene's sub-account "Nene no Sub (@khk_2nd on Twitter)" she was hit twice by a car driven by [an elderly man] the other day and is currently in the hospital after being diagnosed with a "broken left ankle," "broken pelvis," and "several abrasions all over her body"! 🙏🙏💧

As of yesterday, I was told that I might have an "open fracture" because part of my left leg had been shaved off, but there was no fracture and all fractures can miraculously be treated with conservative treatment without surgery 🌻.

If the pain persists too long, surgery may be performed, but for now, we'll just have to wait and see...

It seems that the skin of a part of my left leg is completely gone, so the treatment for that seems to be more difficult (´ ˘ - ˘ ˘ ´)

According to the current discharge plan, you will be in the hospital where you are now for “**21 days**”! After that, it is up to you to decide whether you will be treated at home or transferred to another hospital!

The hospital has given us permission to bring and use a PC in the hospital room, so we will be able to do the following tasks and activities without any difficulty. (If my laptop can connect to the internet... 🙏)

- Contacting about work concerns
- SNS postings (mainly for announcements)
- Posting of Fanbox articles

We will respond to your messages from 8/29💧.

The following will be difficult during hospitalization

- Distribution
- Recording work

配信は〇オ〇レス並に壁薄いから...ごめん！

(Editor's note: I'm not exactly sure what Nene means by this, as parts of the sentence are censored and untranslatable in English with these censors, therefore these are left untranslated for the time being.)

I was told by my doctor that I will have to be patient for a while > - < ° ° °

Please be advised that the delivery of the “custom-made ASMR” that is currently being held is also undecided. I will be sure to record and deliver it as soon as I am healed, so I hope you can wait for it.

I wonder if the unveiling distribution scheduled in the future will be postponed? I'm not sure how long I will be able to get back to my normal life. I am sorry that I can't give you more details, as I myself have no idea how long it will take for me to get back to my normal life.

I was really sad and frustrated and cried a lot because it was a sudden accident while I had a lot of exciting things waiting for me in the future, but crying is not the answer, so I'm going to try to do my best little by little, starting with the tasks I can do in front of me (´ ˘ ˘ ˘ ´) I'm going to try to do the best I can with the work I have in front of me.

As for how we will use the money from the FANBOX, please understand that from September, we will use it in the form of an advance to cover the expenses during the hospitalization period...

Since Nene herself had insurance and the other party miraculously also had insurance, we would like to use the insurance money we receive and the money we get to give back to our

activities! We are not familiar with this area, so if there is no need to pay at all on our side, we will use the money for our activities as usual ^>□<^🌸.

I am once again very sorry to all of you who were startled by my panicked and incoherent post last night.

I've calmed down mentally and I'm going to concentrate on treatment from here on! I will do my best!

This is just a quick announcement...!

Future posts

Nene does not appear to be discussing her incident beyond the day of the incident and some days later. She has deleted the initial tweet announcing the incident and further tweets discussing this matter. While I don't know the reason, my guess is to not interrupt her flow of positive tweets. The pixivFANBOX post is still public.

Conclusion

While these tweets and translations may not be in depth, let alone be 100% accurate, this is going off of all that is known and all that she has provided.

Nene's fans, the Kouhyouchan (仔ヒヨウちゃん), including me, wish her a speedy recovery.

If you would like to hear Nene's work, she does ASMR. If you like that sort of thing, I recommend this video, which I played in the background while adding translations from her pixivFANBOX.
