The Caesar's Lions Deck can also be used to play an alternate version of the classic "War" card game.

SETUP

Each player takes half the deck, excluding Victory cards.

GAMEPLAY

Every round, each player draws their top card in unison to battle each other. Match-ups resolve thusly:

Quadrige > Bestia > Populi > Weapon Gladiators > Cestus > Venator
except Lancea defeats Quadrige and Venator defeats Bestia

Weapon Gladiators: Murmillo > Lancea > Retiarius > Murmillo
(sword breaks spear, spear penetrates net, net snares sword)

Tie: "WAR!" (leave both cards down as casualties, each player adds 3 more face-down casualties, then next winner takes all)

ENDING THE GAME

When decks are depleted, the player with more cards is the winner! If the last round is a tie, the round is discarded. If players have an equal number of cards at the end, continue playing for another round.
