

Issue Topic

Belief Adoption

Overall Issue Topic:

A proposal to augment CRMinf by adding classes and properties below:

- Ixx Meaning Comprehension
- Ixx Provenance Assessment
- Ixx Authenticity Assessment
- Ixx Provenance Proposition
- Jxx1 concluded provenance [D; Ixx Provenance Assessment, R: I10 Provenance]
- Jxx2 that [D: I10Provenance, R: Ixx Provenance Proposition]
- Jxx3 assuming meaning [D: I7 Belief Adoption, R: Ixx Meaning Comprehension]
- Jxx4 assuming provenance [D: I7 Belief Adoption, R: I10 Belief]
- Jxx5 interprets [D: Ixx Meaning Comprehension, R: TX5 Reading]

(b) and by updating the scope note of I7 Belief Adoption and suggesting a different understanding of I10 Provenance.

Present State of Issue

HW MD & PF to provide scope notes for new classes and properties, rework scope note for I7 and redefine I10 . Also provide examples in context and a new proposal by Martin & Pavlos

See [new document](#) ¹

Also see diagrams:

- (1) [Belief Adoption](#)
- (2) Provenance Logic and Interpretation ([here](#))

For Discussion:

Since this HW is too large to be digested, the proposal is to discuss I7, Jxx5, Jxx2 in conjunction with CRMtex TX6

Action to be Taken:

¹ Old [document](#)

- Accept proposed changes (),
- Assign identifiers to new properties (),
- Update the document (),
- Publish a new release.

Then consider the negation of belief (in a separate issue).

Knowledge sharing/ belief sharing not going through an infinite number of intermediate beliefs (shortcut it).
