

HELP US, HELP YOUR STUDENTS

HOW WE HELP YOUR STUDENTS:

- Tutors are trained in a semester - long practicum course and are nationally certified.
- Tutors are hired across disciplines to serve the variety of students on campus.
- Tutors work in all stages of the writing and communication process, including brainstorming, researching, developing and organizing ideas, and revising and polishing drafts and presentations.

HOW YOU CAN HELP US:

- Teach us more about writing and communication in your discipline.
- Tell us your students' specific writing and communication needs.
- Share assignment sheets, guidelines, and grading rubrics with CWC staff.

STUDENTS LEARN BETTER WHEN WE WORK TOGETHER:

Increasing understanding between UCA faculty and CWC staff is imperative in providing the best educational experience for students. We want to learn more about writing and presenting in different disciplines and the needs of your students. If you think you can help us or if you are interested in learning more about the CWC and the services we offer, please contact us. We are available to set up meetings to answer questions and address concerns. If you are unavailable for a face-to-face meeting with a staff member, feel free to email or call to discuss ways we can work together.
