North High School

Course Offerings and Sequence

1 Semester Career Discovery 9th Grade

This course introduces students to the importance of working. Career Discovery guides students through a career exploration process which includes individual work preferences, aptitudes, skills and learning styles. Students will also investigate the training and educational requirements for their chosen career field. Finally, students will learn how to become a successful employee.

1 Semester Career Navigation 10th Grade

Building on the previous Career Discovery course, this class is intended to familiarize students with workplace issues beyond day-to-day responsibilities. Students will learn customer service, conflict resolution and disability disclosure and explore how to be a contributing citizen beyond the role of worker. Students will also develop financial awareness through class discussions and practice of personal budgeting, car and cell phone purchase, and checking and savings accounts.

1 Semester Career Engagement 11/12th Grade

Building on the previous Career Navigate course, this class will help students achieve their postsecondary goals using instruction that addresses career development, career preparation and options for postsecondary education through universities, community colleges, technical colleges and professional certification programs. This class will also incorporate application of academic skills, as well as technical skill development by supporting training plans in work experience courses.

1 Semester Career Capstone Spring Semester 12th Grade

Capstone is a way for students to demonstrate graduation competency in English, math and/or career readiness. Successful completion of the Career Readiness Capstone, designed to equip students with the skills necessary to access an entry level middle skill career, fulfills all graduation competency demonstrations.
