

Cane Sword (Rapier), +2

(by Brother Tyrus: C9108613@cc.newcastle.edu.au, from the "Gallery of Magical Blades, V5.0" by Christopher A. Brooks)

This sword appears to be simply a walking cane, with the handle having a gnarled knob at the end.

Examining the cane when the sword is not drawn does not reveal any seams whatsoever. Upon uttering a command word, the blade can be pulled from the sword.
