About the literary work (in English, 3-5 sentences):

[EXAMPLE] This story is about Hannibal's crossing of the Alps, from the perspective of one of the elephants. It has fairy tale-like elements, but it also includes many historical facts about Hannibal's crossing the Alps with an army that included elephants. My goal with this story was for it to be humorous and novel through its use of the perspective of an elephant in Hannibal's army, while at the same time be informative by including historical facts such as those mentioned above.
