

**Everyone Deserves a
Place to Call Home**

**As Your Liberal MP, Phonexia2 would ensure that housing
across Atlantic Canada can be affordable for everyone again.**

Vote Phonexia2 for Atlantic Canada

Phonexia2 stared at the beautiful billboards that went up around Atlantic Canada and she knew that they would be up at least 100 days. Then she addressed the crowd.

“Thank you folks for coming to listen to my speech. I am so glad to be here, and hope that everyone will vote for me so that we can make our dreams come true. For too long we have allowed the housing prices to get out of control and now we finally have a plan to pull back the reins.

Vote for me and I will push for a strong housing plan that keeps all parts of government in the loop and works together in a bond. We need more housing and if you folks vote I will work my heart out to make it happen but I will not sacrifice the planet to do so in pursuit of a number. We need a plan that works with indigenous people and municipalities, and regional leaders, and the environment and that is the one before you today. I am confident that we will make our situation better and finally grab control of the market, making housing affordable for all.

Together we can make a difference, and I hope to see you folks on election night with a smile so get out there and vote for me in Atlantic Canada
