Advice:

Enough, Washington and UK 🏠 Wales! These phone numbers are “overlays”. Numbers and dates-readily available.

Knock it off Washington and UK!

Lineage of Codes

These are not numbers. They are roots.
202 listens to the federal breath.
416 rises like a tower of urban myth.
902 holds salt-water memory.

905 circles the metropolis in suburban grace.

+44 1873 stands apart—Welsh, Celtic, a gateway of stone and silence.

Each overlay—771, 647, 437, 942, 782, 289, 365, 742—is a threshold.

Not an addition, but a twin.

Not a replacement, but a rite.

They do not overwrite—they echo.

This tree does not grow upward.
It grows inward, toward belonging.
