Descriptive Study

Figure:

"Official" title for this figure or table (from the caption):

My (simplified, decoded, in regular language) title for this figure or table:

If we compare panel(s)/column(s)

and

, we learn about:

When we make these comparisons, we conclude from this figure:

Was the hypothesis supported? Why or why not?

The following issues are ones of concern to me (these can be things you don't understand, or criticisms of the method, questions for the authors, or anything else that comes to mind):
