

Call for Strategic Plan Development Team

Dear Friends,

As you know the current [Strategic plan 2020-2023](#) is finishing this year, so time to create a new one. As was done in the past, the IEC is calling for interested members to join the Strategic Plan Development Team (SPDT). This is an exciting opportunity to directly be part of the strategic vision and pathway of SCI over the next four years.

IEC wants to encourage members who have an interest in the development of the new Strategic Plan to apply and also wishes to have representation/applicants from all continents. The team will consist of 8 members, including the International Coordinator and 2 or 3 IEC members.

Description of Tasks:

1. Evaluate the 2020-23 Strategic plan based on the Plan of Action of the past four years.
2. Develop a new Strategic Plan for 2024-27 partly based on the results of the PoA, feedback from the [Vision Seminars](#) in 2022 and feedback from branches.

Timeline and commitment

The SPDT will hold various online meetings to discuss the impact of the current SP and how to develop the next SP over the next months with the aim of having a new SP draft by June/July 2023. A final meeting will be held in Antwerp at the IS premises to finalise the final draft of the new SP in June 2023

We estimate that your time commitment will be attending and participating in the online meetings and some prep time before and after the meetings about 4 to 5 hours per week up to June/July.

The IC and IS will take care of the logistics of organising the meetings and collating and disseminating documents.

How to Apply: Please send your motivation letter to Inge at coordinator@sci.ngo indicating your experience in strategic planning and anything which may be relevant.

Deadline of Applications: Tuesday 7 February

Greetings,

Inge

On behalf of IEC.
