

Miss Bible is proud to serve as a Functional Academics teacher at Hawthorne Elementary, where she is dedicated to supporting the academic, social, and emotional growth of every student. She is passionate about creating a positive and nurturing classroom environment where all students can learn, grow, and feel valued.

Before joining Hawthorne, Miss Bible worked for over three years at Lighthouse Autism Center, where she helped students develop both academically and socially. Her experience there strengthened her belief in the power of building strong, supportive relationships with students and families. She earned her Bachelor's degree from Lincoln University in Missouri and continues to focus on helping students reach their full potential through care, consistency, and collaboration.

Outside of school, Miss Bible enjoys spending time with family and friends, exploring new activities, and finding ways to bring creativity into her classroom. She is excited to be part of the Hawthorne Hawk family and looks forward to working hand-in-hand with families to help each child succeed.
