

Collection de collections

The *Collection de collections* publication was produced after the eponymous exhibition, scheduled to be held at Galerie UQO from May 13 to June 13, 2020, was cancelled due to the COVID-19 global pandemic and subsequent closure of the Université du Québec en Outaouais. These ongoing circumstances have deeply impacted Galerie UQO's 2020-21 programming, and by extension, the *Collection de collections* project. But despite the lack of an exhibition in the physical gallery space, this publication ensures that traces of the artistic and curatorial work that went into the project are preserved.
