Annual Invasive Grass Control Program

Statement of Interest

Name _____

Phone _____ Email _____

Across the West, invasive annual grasses are a major threat to sagebrush rangelands, impacting plant communities, wildlife habitat, and wildfire risk. Colorado First Conservation District has obtained funding through Colorado Department of Agriculture and The America the Beautiful (ATB) Challenge to help landowners control invasive annual grasses on private land.

*CFCD will pay up to 100% of the cost of pre-emergent herbicide for **up to 225 acres, up to \$48.80/acre for a maximum dollar amount of \$11,000**, to treat the following target species:
Cheat grass, Bulbous Blue Grass, Medusahead, Ventenatta.

*Landowner will be responsible for cost of labor, application, and other associated chemical costs/ tank mixes.

If approved, CFCD will require a more detailed contract to be signed by both parties.

Property Location _____

Description of Property (describe current land use, crop or grazing, hunting, etc.):

Description of need: (describe target species and other native and perennial species present, approximate percent of land lost to invasive species)
