### MORE INFO

**Detailed information: you are here!**

The document will always contain the most up-to-date information I have, so if you see differences between it and the summary sheet, trust the document. I always welcome feedback for improving the clarity of my commission process.

**Let me make your dream file!**

## PROCESS

**I require full payment up front.** You will not receive your commission until the payment has been processed. I prefer payments through Venmo (if you need an alternative, we can discuss options).

Through this process you can expect a fair amount of communication from me; **I will ask a lot of specific questions** to make sure that I'm getting things how you want them, especially at the beginning. I will do my best to understand your preferences as well as possible before beginning in order to minimize later edits. You can be as involved or uninvolved with the brainstorming process as you wish, but again, **you will be more likely to enjoy the final result if you communicate your desires clearly early on.**

Unless otherwise agreed upon, I will be sending updates for your approval at certain points in the process before moving on to the next step. If you do not respond to an update within one week of me sending it, your project will go onto the "cold shelf." This means that I would pause progress on it completely until I heard back from you. I will send you one reminder message, but if I do not hear from you within two weeks, I will assume that you no longer wish to continue the commission.

You have one week after receiving the final audio to request any final changes.

## REFUND POLICY

Below are the ONLY times I will give refunds.

Script+Audio: You withdraw your commission before I have finished writing the first draft.

Audio Only: You withdraw your commission before I have recorded the file.

Script Only: You withdraw your commission before I have started writing the first draft.

All: If I am unable to complete your commission due to personal or health problems.

# CONTENT

Content that I will not create/engage with:

- Pedophilic, underage, or ambiguous content
- Content that depicts explicit rape, sexual harassment, or excessive violence
- Certain kinks, including but not limited to sissy, scat, explicit vore, etc.
- "Hateful" content
- All other ideas will be a case-by-case basis.

You can ask me to use specific pet names, your first name, and/or specific pronouns in your audio file. However, it is also likely that I will make a version of the file to release to the general public. I retain all rights and ownership of the script and/or audio file that I create for you.

The following is a loose guideline and does not contain all possibilities.

You can request (script):

- me to write a script for an OC of yours
- me to write a character based on described characteristics, with varying levels of creative liberty
- me to write a character loosely inspired by an existing character (an original character with some similar traits/mannerisms)
- me to write more than one character (max. three)

You can request (voice):

- me to voice a publicly available, free to use script that the author has given express permission for use
- me to voice a script that you commissioned from another author
- a certain vocal tone or style (ex. soft, high pitch, deep, raspy, shaky, etc)
- an attitude or mood (ex. flirty, comforting, happy, angsty, etc)

You can request (SFX):

- inclusion of light, medium, or detailed sound effects, depending on what the script calls for
- inclusion of specific ASMR triggers, either related to the story or as a faint background track (like the tapping in some of my audios)

I will NOT:

- voice a script that a creator has not given permission for use
- voice characters from fandom (can't guarantee satisfactory results, imitation is not my strong suit)

## PRICING

Contact me if you feel you cannot afford my rates. I may be willing to negotiate within reason. This is an honor system.

There are a number of elements that will go into determining the final price for your commission. **Please refer to the information on the next pages to get an estimate of what your project might cost.**

I will always let you know when a change will require a price increase so you can decide if that is within your budget.

If you change your mind entirely about what kind of character, scenario, script you want, while we have made a lot of progress through the first, I will regard it as a new, separate commission.

All pricing information is in USD currency.

## DISCOUNTS

Previous commissioners will be eligible for a 10% discount. **You are responsible for notifying me if you are eligible for this discount before you give me your payment.**

Patrons who have subscribed for 6+ months OR have paid 50\$ in total as a patron are eligible for a 10% discount. **You are responsible for notifying me if you are eligible for this discount before you give me your payment.**

## CALCULATION

Once we have determined the cost of your project, I calculate any eligible discount and remove it from your total.

## OPTIONAL ADD-ONS

### MANTRA FILE

If you want a secondary audio file accompanying your main one (examples on my Youtube), we can discuss that. The price will depend on length and complexity of the additional file, so we can negotiate an appropriate price.

### CHARACTER ART

If your commission includes a character that you would like visually depicted, this section is for you!

I do my best to make commissions adaptable for public release. **In these cases, I will already make art for the character, free of charge.**

There are two cases in which I would ask for extra compensation for character art:

- I won't be able to release your file to the public, but you want character art
- You want influence over the character design and artwork that I do make

In either case, these are my rates **for art that accompanies your commission only:**

# of characters:	1	2	3
Bust only (head and neck/shoulders)	+5\$	+7\$	+10\$
Half-body (waist up)	+10\$	+15\$	-
Full-body	+20\$	-	-

These prices are quite literally a STEAL compared to what I would typically charge for an art commission, so if you are interested in having influence over the visuals of your character, please consider factoring this into your budget!

Please don't hesitate to let me know if you have any questions or concerns! Thank you for your support.

## REVIEWS

View feedback from some past commissioners!

"I don't remember if you asked for my thoughts on the experience, but in short it was positive and powerful. It impacted me more than I expected on first listen, despite having read the text, it felt unexpected in a good way.

It's my first time commissioning anything, your framework of questions and guiding was very effective at helping me get an idea of what I was actually looking for.

It was nice seeing how you made it all come together over time, seeing the character, reading the words, and finally experiencing the meeting. I think you both captured what I was looking for, and some aspects I didn't even know I wanted.

In short, I had a really good experience about both the journey and destination."

"The finished version worked perfectly! I am very happy with the end product - thank you!

As for feedback on the process and communication I think it worked very well - to me, the opportunity to provide feedback and shape the development of the file was essential for making sure that it met and exceeded my expectations (moreover, it was also fun :-))."
