

*Today, Governor Tripplyons18 is travelling the short distance from the Governor's Mansion in Austin, Douglass to Houston to hold a campaign rally for his re-election campaign for Douglass Governor. A large crowd of Douglass Democrats have packed into the Toyota Center to hear the Governor speak. The Governor is expected to address the repeated attempts by his administration and fellow Democrats to pass the budget.*

“Good evening my fellow citizens. It's great to be here in the city of Houston. Our gubernatorial re-election campaign is underway and off to a great start. We've already achieved high fundraising marks and widespread support for the policies and the ideas that our campaign has. But, clearly the Republicans do not care.”

“In the last state elections, Democrats campaigned on the promise of passing a budget that appropriately spends on social welfare programs so that the government can do its job and provide opportunities. We need to fund important departments like the Department of Health and Human Services that address the health of our citizens.”

“Our budget also raises taxes on the top one percent of the Douglass people. For too long, the wealthiest of the wealthiest have gotten away with not paying their fair share of taxes. These individuals are currently engaged in a scam against the middle class and lower class individuals.”

“The fact of the matter is that the middle class is truly the backbone of the American economy and they have for far too long been oppressed with high tax rates. All these people are trying to do is to provide for their families and yet our government is forcing them to pay millions of dollars in taxes while Republicans push for even more tax breaks for the top one percent and all those corporations. This is unacceptable!”

“The state assembly should finally move to pass this progressive piece of legislation into law because it finally eliminates the stain on economic theories that is trickle down economics. In my state, I will never allow our elected officials to destroy the middle class and lower class jobs so they can get more donations from their corporate scumbag partners.”

“The Douglass budget also provides funding for our healthcare program. Not too long ago, our Assembly passed my Southern Health Act which established a public option for our great state. This bill will provide millions with affordable healthcare that includes vision, audiology, dental, radiology, hospital and in patient appointment, disability care, reproductive health, and gender affirmative surgery.”

“However, in order for our great state to cover all of these things, we must fully fund the Department of Health and Human Services. That’s exactly what my budget does by dramatically increasing the amount of funding for the Department of Health and Human Services.”

“By repeatedly voting against the budget, Republicans are proving that they stand in opposition to the safety and health of our citizens. That’s right folks, let me say this bluntly. The Douglass Republicans do not care about the health of you.”

“Well let me get something straight here this afternoon. My fellow Democrats and I do care about your health and well-being. That’s why we will never stop fighting for this budget. I don not care if it takes us the next year to pass this budget. As long as I am Governor, this assembly will be forced to consider the budget until they finally wake up and do what the people want.”

“There will be no negotiation. We will not cut anything out of the budget in exchange for passage. And no, we won’t be passing cabinet nominees in exchange for the budget. The budget will be passed and the Democratic Party will not concede anything in order to pass it.”

“Folks, in this election, you have the opportunity to show the Republicans that you are tired of their partisan games. You can tell them that you are sick of them withholding important funding

to vital government programs. You can tell them that you want a progressive budget. A vote for Tripplyons18 is a vote for a progressive budget. Thank you!”
