

Date: 5th April 2019
Time: 6:00 PM
Location: Walt Disney Studio

(Nobi was seen wearing a Spacesuit)

Nobi: This is the day when Earth takes over as The Ruler of The Galaxy!

"AND CUT"

(The Director signaled for the scene to be end)

Director: And that's a wrap! You did a great job, Nobi!

Nobi: Thank you, Sir, such an honor to be part of Space Force 3! The first two movies were really great!

Director: Your presence will make these movies even better!

(Nobi said "Thank you" then he went to his changing room as he changed to a casual attire. Him and his wife, Shizuka went to the parking lot as they were going back to hotel. Nobi drove the car)

Nobi: Man, I can't wait when Space Force 3 finally hits the theatre!

Shizuka: Me neither! It's great that you're doing well in Hollywood! Your Hollywood career is much better than your pro Wrestling Career!

Nobi:thanks I guess...anyway, speaking of wrestling, I actually got an invitation to watch OWA Final Destination live on April 20th and 21th! I can't wait to meet them all!

Shizuka: Oh....that's good....I guess. Will Lioncross be there too?

Nobi: Probably. I'll give him a call when we arrived at Hotel.

Shizuka: Any words on Andy Sanders?

Nobi: Nah.....poor guy. His Pizza place got burned.

Shizuka: That's really sad.

Nobi: Yes...anyway, I was joking around with the director, what if there was a wrestling show in Space?

Shizuka: Whoever can make it come true, his or her name will always be written in history!

Nobi: You know what? You just inspired me to do it!

Shizuka: What?! How would you make it come true?!

Nobi: Well...I'll just propose this idea to NASA! I'll see what I can do!

Shizuka: Are you serious?!

Nobi: Yes! yes! 100% serious! I want to do this!

Shizuka: You must be out of your mind...

Nobi: Maybe but if I make this come true, wouldn't you be proud of your husband?

Shizuka: I'm always proud of you but if you make this come true, no doubt that I'll be even prouder of you! I'm just not sure if this would work....

Nobi: That's why I said, I'll see what I can do. I'm going to try to make this work...
