

RULES:

- This MAP is largely unscripted-just follow the rules and art direction!
- Though this MAP is unscripted, it is NOT a spoof MAP. It isn't super serious and your part can be funny or goofy, but please still take it seriously.
- Again, though this map is unscripted it should make sense. The first couple parts should be in Twolegplace, meeting Millie, etc. while the outro should be something after their adventure. Finding the lake territory, Graystripe and Millie curled up in a nest together, whatever you think works!
- Join the discord! This is how I will communicate with you. Spectators welcome.
<https://discord.gg/55fvqYpZB>
- Your part should be 1920 x 1080
- Your part is due one week after the MAP is filled! You can have one two-day extension afterward.
- Apply in the form. <https://forms.gle/GsKofDTrPqgoaK2D6>

ART DIRECTION

- All designs are by Niftysenpai. If you want to use cats other than Graystripe and Millie, find them here: <https://warriorsproject.tumblr.com/>
- This is a Christmas MAP! It takes place in the winter. There should be snow on the ground.
 - Use the background references below for how your backgrounds should look. For anything outside of just forest, just try your best. I'm not picky, I promise.
- Your backgrounds should have an almost storybook feel, don't worry about them looking super clean.
- Use the shading guide below! If your part takes place during the day (your choice, by the way,) then use the day guide. If it takes place during the night, then use the night guide.
 - AMV or tweened PMV
