

# ASCA Vision and Mission Statement

## Program Focus: Vision Statement

The school counseling vision statement communicates the ultimate outcome for students in the future specifically related to achievement, career, and social/emotional or other outcomes (where we hope to see students in the next 5-15 years). It should reflect our agreed-upon beliefs and worldview and align with our CUSD and CHS visions.

**CUSD Vision:** To be America's benchmark for excellence in education.

The **Vision of Clovis High School** is to connect today's students to tomorrow's opportunities.

The vision of the Clovis High School area school counseling program is for all students to acquire the attitudes, knowledge, and skills to achieve their full potential. Students from Clovis High School are responsible, resilient, and competent individuals who respect and advocate for themselves and others. Every student seeks out opportunity, embraces challenge, and strives for excellence as they pursue excellence in the 21st century.

**UPDATED:**

## Program Focus: Mission Statement

The mission statement describes what the school counseling program does (clear, concise), defining how our program reaches long-range results described in the vision. It should align with district and school mission statements, but with focus on unique contributions of the school counseling program. It should overtly link our program with the learning environment and support the school mission.

**CUSD Mission:** To be a quality educational system providing the resources for ALL students to reach their potential in mind, body and spirit.

The **Mission of Clovis High School** is to ensure that all students will be given every opportunity to maximize their potential in the areas of Mind, Body, and Spirit, enabling them to become productive, contributing members of our society.

The mission of the Clovis High School area school counseling program is to guide ALL students through a data-driven, comprehensive school counseling program by providing equitable access to a rigorous curriculum, modern technology, and post-secondary opportunities, ensuring achievement and opportunity gaps are addressed. Counselors collaborate with teachers, parents, and administrators to prepare all students to be college and career ready, life-long learners by addressing academic, career, and social/emotional needs of all students and empower them to reach their potential in mind, body, and spirit.
