

HEALTHCARE MINISTRIES

Last updated: July 9, 2025

Founded in 1923 to support the Congregation of Holy Cross's international ministries, the Holy Cross Mission Center today provides strategic support to Holy Cross ministries in education, healthcare, social services, and parishes in Bangladesh, Chile, Kenya, Mexico, Peru, Tanzania, and Uganda.

We welcome opportunities to connect individuals and institutions with healthcare resources and expertise with those ministries for the benefit of those served at Holy Cross ministries around the world. Below is a list of Holy Cross healthcare ministries supported by our office. To learn more about our work, visit holycrossmissions.org.

Partners interested in healthcare planning and resource allocation should also know that many Holy Cross parishes and schools outside the United States provide housing for students in hostels or dormitories.
