

Many businesses struggle to get more customers, it can be of many reasons, some of the most looked over ones are your competitors, your staff, social media presence and more.

We all want to get that one perfect client, including myself. Once you understand how to get these, it might just save your business.

In this article, there's valuable information that will help you and your business in many ways.

Let's get into it.

Easily attract more customers for your business with Meta ads.

86% of businesses struggle with the most important thing in a business: CUSTOMERS.

You're properly thinking *Why is customers the most important thing* Well, here's the most understandable answer: Money is the lifeblood of your business, not your staff, not your tools, but Money.

The ONLY way to get money-in is by getting MORE customers.

Now, there are so many ways to get more customers, You have properly often heard of these:

- Discount your product.
- Make videos/photos on social media.
- Advertise on your car.

When you rote those points, this went true your head at some point: *What's wrong with those, everybody those this, so that means it works*

You're not completely wrong, this worked in the past, but now... Everybody does this, so it's getting ignored 96% of the time.

So there needs to be another way, right?

Correct, and it's been one for a long time. But people are too incompetent to figure it out.

So I did it for you.

This has been working for me, and nearly doubled the monthly amount of customers businesses I've worked with got after I employed this one underrated and high-affecting plan.

It is....

.. Ads, and more specifically Meta ads. (Facebook and Instagram)

There are so many more ways to get more customers true Meta, but my favorite is..

Retargeting, *How do i do it* It's simple, when you launch an ad/campaign, you get your first lead. When someone clicks, it only means one thing, THEY'RE INTERESTED.

From there, you retarget them.

Interested= perfect client.

I will guarantee, if you listen to what I said and try to implement it, you'll never have to worry about getting more customers again. Use And Abuse This.

If you want to know how we would do this in your business, get in contact us through the form below, and we will answer within 1 hour, if not, we will analyze your content for free!

This is why your competitors are taking your clients.

Lots of business owner's face this problem,

Chances are, your business is facing this problem too, without you being aware of it.

So many people struggle with this. It's got to the point where it's ridiculous. After struggling for months on months, I worked out a solution that will fix this one very important problem. It Massively helped me, and I guarantee it will for you too.

There are so many reasons to why this problem exist, in some cases, this could be the problem:

- You have overpriced services.
- you have too cheap services(Your clients don't trust you)
- you do a sloppy job.

Now, is somebody going to buy from you if you have 3x your price compared to everybody else?

No, very few can pull that off, that's a talk for another time.

How can these points i made affect your client's decision whether he wants to be with you or move on.

it's simple,

Copy others, see what they're doing!

We all learned in school that copying others is bad.

But not in Business.

Take what you're doing, and compare it to somebody else, analyse the difference, what's making their business get so much more clients.

You need to learn from others before you can learn yourself.

When you analyze the difference, actually try. I guarantee, you will soon find out why your business is losing customers.

Once you find out why your business is losing customers, you have an advantage of other businesses, you know something they don't.

And you can use that to steal clients from your rivals.

Market yourself as a professional with this one simple trick.

When i say this, you properly thin it can only be achieved by

* studying Business school for 3 years*

Now, for someone that didn't do that, and is a professional, this is simply wrong.

There are so many ways to become a professional, but something they all have in common is skills.

Everyone knows how to be good at something, and that is true practice.

Practice makes perfect.

For example, if you have a car seller that's been selling cars for 12 years, is he going to be better that a car seller that's been selling for 6 years, but he knows how to speak because he's been practicing it every day?

99% of the time, practice always wins, it's like that for everything.

Even you, being capable of typing fast is a skill.

You need to have an important skill, it can be sales, marketing, writing, ANYTHING that will help you get more money. Everyday you need to practice, 1 hour is enough.

Once you learn one, I guarantee you come back to this and be happy you took the right choice.

I See this all the time

Companies,

Approaching customers creepy, saily, low energy or needy.

'Why is this bad'

It turns off the customer, they want to leave the second they come in, you can feel the energy. It will damage your reputation (1 star reviews) Monthly or yearly customer will be gone. I'm saying it because I've experienced this myself, and it wasn't pleasant.

There's only One way to fix this, It took me months and months to figure this out, I did it because I know many businesses struggle with this scary problem. But you are and properly will be one of the few that have access to this.

My Simplest way of fixing this is by Firing 70% off your staff, I know this doesn't sound right, but it is.

You have staff to make you money, not to lose.

You need the best of the best.

It's Much better to have 4 very good ones, than 8 Mid ones. Do it NOW.

If you think 'They're the best salespeople in Know', 81% of them are not. Your ship is healing for a cliff.

There's only One way to prevent this, and you know what it is.

There are many ways to do this, and it is possible for any company, including you. If you understand how important this is for your business, and know how we will do this in your business, please contact us using the form below.
