

Casper Wu
UC Berkeley Class of 2023
Business, Data Science

Ms. Jane is one of the most patient, understanding, and fundamentally sound teachers I've ever met. She is one of the few teachers I have had the privilege to study under that gets personally invested in her students' success. She's a dependable teammate as much as she is an excellent instructor.

If you're looking to see whether to enlist Ms. Jane's math services, you can use me as an example to do some quick calculations and get the right answer. I was never a strong math student to begin with. But, if you take the belief Ms. Jane had in me and the hours of time she put in to tailor the optimal curriculum for me into the equation, you'll see you have a winning formula. With her, math no longer was a burden on me (or my GPA for that matter). Conversely, I probably would not have made it to Berkeley without her.

Ms. Jane was the differentiating variable between returning home happy with improved test scores and fearing the next time my parents opened Schoolloop grade update emails. I'm so grateful to have had the opportunity to work with her, and if you manage to get the chance, you should definitely take advantage of it as well.
