

Dear friends,

Thank you very much for your support and solidarity with Ukraine. We are standing strong in Ukraine, but every day we are losing Ukrainians to this horrific war. Believe me, we all want the russian aggression to **STOP**. That's why every Ukrainian is doing everything possible to support Ukraine in this difficult situation. And I know for a fact that you can help us stop it!

Some of you have donated to our fundraising initiative to buy fabric and materials to sew lifesaving vests for medical and military personnel. I am immensely grateful to you for this! We have already raised 5413 Euros (screenshots below), however, we need to raise at least 10000 Euros to buy armour plates for 30-40 vests.

If every one of you donates even 1 dollar or 1 euro, it will help us get closer to the end of this brutal war. Please help us make a difference.

As mentioned earlier, you can view an inventory of materials here (<https://bit.ly/3vwtKV>). The bank account functions without any fees in the SEPA region in Euro. All purchase receipts will be posted in this folder online (<https://bit.ly/3tnjFgV>). The bank details are below:
