Saint Bonaventure (1221-1274) is a doctor of the Church, for his extraordinary intellectual achievements. His imitation of St. Francis, who burned like the seraphim with love for Christ, earns him the title “The Seraphic Doctor.” As a child, he recovered from serious illness after his parents prayed for St. Francis’s intercession. For this reason, when he became a friar he took the name “bonaventura,” which means “good fortune.” He served for 17 years as head of the Franciscan order and taught at the University of Paris. May God help us to follow the Seraphic Doctor’s example of love, faith, and leadership.
