

## **User Stories:**

As a user, I want to find an event that I want to attend by day/time/category, so that I can meet new people and have an experience I can enjoy.

As a user, I want to be able to easily RSVP to an event, so that people can see I am going and be able to attend.

As a user, I want to be able to easily change my RSVP to an event, so that just in case I can't or decide I don't want to attend I can let the event organizer know.

As a user, I want to be able to receive notifications and reminders of events I am attending, so that I can remember to attend.

As a user, I want to be able to contact and message event organizers and other attendees, so that I can ask questions about the event or just get to know people before attending an event.

As a user, I want to be able to see how many people are planning to attend an event, so that I know what to expect or if it is worth going.

As a user, I want to be able to easily see all event details through the app/site, so that I know exactly what to expect so I can be more comfortable and excited.

As a user, I want to be able to pay for events directly through the app/site, so that I don't have any confusion on where I purchased a ticket or reserved a spot.

As a user, I want to be able to invite a friend to an event through the app/site, so that I have someone to go to an event with me to give me more comfort.

As a user, I want to be able to see all past, present and future events I have RSVP'd to and attended, so that I can keep track of which I liked and which are next.

As a user, I want to be able to add events to my personal calendar, so that I don't forget.

As a user, I want to be able to get suggestions of future events that I might be interested in, so that I can be aware and attend more events that I like.

As a user, I want to be able to save/favorite/interest specific events for later viewing, so that I can go back and RSVP when I have thought about it some more and made up my mind.

## **How might we questions:**

How might we motivate users who RSVP 'attending' actually follow through and attend?

How might we get users to feel comfortable with event organizers and other attendees before attending an event?

How might we excite and engage the users on events they have RSVP'd to?

How might we help users remember to attend an event they have RSVP'd to?

How might we help users easily find and RSVP to an event that they are interested in?

## **MVP's**

Finding an event to RSVP and attend to

Getting notifications/reminders/emails about events

Message/group forum

Manage events -Save/share/add to calendar/change RSVP etc.
