Notes:

- The professor reviews the bids and required materials (if applicable) and selects a group of students. The class bidding system then applies the usual priority and seniority rules to the pool of selected students to generate the final assignments.

- Priorities can be used on bids for “prof pick” seminars and practice simulations, and potentially spent for students included in the pool of selected candidates.
- During the Wolverine Access Drop/Add period, admission to a “prof pick” class is by permission of the professor and not according to waitlist order.
- Students interested in a “prof pick” seminar or practice simulation during the Drop/Add period (May 19 at 8 a.m. – September 2 at 11:59 p.m.) should add themselves to the waitlist in Wolverine Access and submit the required supplemental materials via email to the professor for their consideration.
