Act of Ratification

Preamble

This document serves as evidence of proposed terms by the BCM Alliance. If it is declared void, the Cabinet will immediately begin a vote of amendment to the Sharkish signature. This document is *de jure* classified as an Act of Ratification, and therefore has been ratified after reaching a three fifths ($\frac{3}{5}$) majority in the Royal Cabinet of King Shark Walker V.

Royal Cabinet

Treaty of Latveria

Preamble

This treaty has been written up in a hastily manner due to the possibility of war breaking out between the Kingdom of Latveria and the Empire of Germania. The BCMA have taken comments from the Empire of Germania under a post made by u/Starmix (leader of Latveria) in the r/micronations subreddit seriously. u/KaiserHohenzollernV made a comment under the post and in an edit said "Edit: you still claim Ernst Thälmann island? It is a possession of Germania" under this comment u/TylerVonRebik commented "Sounds like war to me." and u/KaiserHohenzollernV replied to this comment by saying "Germania may have to resort to that".

Terms

BCMA member states which sign this treaty shall back up not just the Kingdom of Latveria, but also all other members of the BCM Alliance in the case of war. An act of war on a BCMA member from a non BCMA member shall be treated as an attack on all member states. Even if war does not break out, member states are mandated to back up the Kingdom of Latveria in any territorial disputes.
