

Local 212 Stands with Undocumented Members of the MATC Community

Local 212 stands in solidarity with all immigrant and refugee students, school workers, and their families. As attacks on immigrant communities intensify, we reaffirm our unwavering support for those vital members of our MATC community.

Every student deserves access to education, resources, and a sense of safety—regardless of birthplace or citizenship status. Local 212 is committed to ensuring that immigrant and refugee students have the support they need to succeed. We are committed to working with community organizations to expand resources for students and their families navigating these challenges.

We call on the MATC community—our members, nonmembers, and educational leaders - to join us in fostering a safe, informed, inclusive and supportive environment at MATC. Together, we can ensure that all students and employees have the opportunities and encouragement they need to thrive.

**In Solidarity,
Local 212**
