AMAZING mattress - wish we bought years ago.

Rachael

29 days ago

My husband and I were reluctant to buy a new mattress since our Tempurpedic was less than 4 years old but we had both been waking up with terrible back pain. I had spinal fusion surgery 20 years ago and was told that by the time I'm in my 30s, some degree of chronic back pain is just something I'll have to deal with. Well, after just 3 nights of sleeping on our new Wave Hybrid mattress, I have woken up to very little to almost NO lower back pain the last three mornings! I honestly thought we'd have to trial and error a bunch of different mattresses but decided to try Casper first - and I'm SO glad we did. I actually cried happy tears this morning when I woke up the third morning in a row with a "normal" back. I would 100% recommend this mattress...wish we bought this years ago.

Love it so much I bought it twice!

Sophia

a month ago

I bought this mattress and absolutely loved it. I always look forward to coming back from vacation just to return to my own bed. Haven't slept on a bed this good so I've bought more than one to replace other mattresses I own. As a side sleeper, this mattress really supports my shoulders, without any issues. Also- can barely feel my partner turn over. Overall, cannot say enough good things!
