July 14, 2023 – Nashville-based singer, songwriter and producer **Phillip LaRue**, known for his soulful vocals and heartfelt lyrics, releases his new album **Colors** today with Nettwerk. The album takes listeners on an emotional journey as LaRue chronicles his relationships with key individuals in his life, such as his wife, grandmother and sister. Purchase and stream [HERE](#).

LaRue brings these poignant interactions to life on *Colors*' 13 tracks, adding, *"I tried to make this feel like a road trip album. Listen, roll the windows down, and get out of it whatever you need. I'm being honest with myself. So, maybe this helps you ask questions, look at the moment from a different point-of-view, be honest with yourself, and create a lasting memory. If I can be a part of your story in a tiny way, that would be truly amazing,"*

He first introduced the *Colors* album with a pair of EPs: September 2022's *It All* and March 2023's *Thank You June*. *Colors* is made up of the songs from these releases, including stand-outs like ["It All,"](#) ["Amen,"](#) ["Never Break,"](#) as well as three additional tunes recorded during the same sessions, presenting Phillip's full, unfiltered vision. One of these new tunes, ["Cover You,"](#) comes today with an accompanying music video.

With *Colors*, LaRue unveils in a vivid, vulnerable, and vital style of his own. He adds, *"I tried to make this feel like a road trip album. Listen, roll the windows down, and get out of it whatever you need. I'm being honest with myself. So, maybe this helps you ask questions, look at the moment from a different point-of-view, be honest with yourself, and create a lasting memory. If I can be a part of your story in a tiny way, that would be super cool."*
