

LIST OF PROBLEMATIC FANSITES AND SASAENGs

LAST TIME UPDATED: 01-06-2021

(masterlist made by @bestnuoyi [KUN LUCAS XIAOJUN WINWIN WAYV], @chttaphqn [TEN HENDERY WINWIN XIAOJUN WAYV] & @doiehot [YANGYANG] on Twitter, if you think there's a mistake or want to add someone, you can send us a message).

list inspired by @narjee_ on Twitter.

DISCLAIMER - PLEASE READ

NOT ALL FANSITES DO THIS, this is just a list for the "fansites" that do not respect WayV's privacy. You can make your own opinion about anyone, this just marks attitudes or photos that seem to be weird for us. YOU CAN BELIEVE IT OR NOT, THIS IS TO GATHER INFORMATION.

→ Part of every sasaeng takes photos of them passing security, and in fact, if you see airport pics (esp from Incheon) and there's anything other than a white wall, that pic is taken **PAST** security. Incheon airport arrivals are a big white tiled room and check-ins are in a big grey hangar-style room.

A sasaeng is "**an obsessive fan who stalks, or engages in other behaviour constituting an invasion of the privacy of an idol or a group**".

Taken this as an example, we are going to list all the activities we can consider sasaeng behavior:

- Basically following the group or a member during their personal and private moments (their dorm, to the cinema, their friend's place, etc.).
- Some of them have connexions with Label V or they are even part of the staff, where they get all their information like flights, personal schedules, private events, etc.
- Taking photos in areas and/or restricted areas in airports such as inside the flight, duty free area, security check-point, baggage counter, immigration, boarding gate etc. (so behind the security, not where the press is). Some fansites "ONLY" take pictures on the way to the gate which is not illegal.
- A sasaeng can also sell private information to fansites or sasaeng fans. Of course, most of them won't advertise it publicly/explicitly.
- Some schedules (specially airport flights) are not scheduled, when it is, the press is there. If only the "fansite" is there, this means they did something to get the information.

→ Here is a [CARRD](#) made by @bestnuoyi with the list based on this doc.
