Applicant Information (see format below)

I. Research Title
Applicants are required to select one research title from the list provided by the scholarship committee. The selected title must be clearly stated at the beginning of the proposal to ensure alignment with the research objectives outlined in the program.

II. Research Understanding
Applicants should provide a concise explanation of the research topic, outlining its primary objectives in a minimum of 100 words. This section should identify key challenges or knowledge gaps the research aims to address and emphasize its significance within the field, as well as its broader scientific and societal impact.

III. Motivation and Goals
Applicants must describe their motivation for choosing the research topic in a minimum of 100 words. This section should explain the personal and academic reasons behind their choice, how the topic aligns with the applicant's career aspirations, and the anticipated impact of the research on both professional development and the field of study.

IV. Relevant Background and Skills
In a minimum of 100 words, applicants should summarize their academic qualifications and prior experience relevant to the research area. This section should highlight specific skills, techniques, or training that will support the successful completion of the research successfully.

V. Research Readiness and Resources
Applicants should describe their plan to prepare for the research, including any additional training, literature review, or skills acquisition, in a minimum of 150 words. This section should also explain how the applicant plans to manage to complete the research successfully.

VI. Additional Information (optional)

Applicants may include any other relevant information that demonstrates their readiness and enthusiasm for the research and scholarship in a minimum of 100 words. This section provides an opportunity to strengthen the proposal by highlighting unique qualifications, achievements, or circumstances.

VII. Declaration (Do not edit this part!)

"By submitting this proposal, applicants confirm that all information provided is accurate and truthful. Any misrepresentation may result in disqualification from the scholarship selection process."

VIII. Bibliography

List all scholarly sources cited in your proposal using a consistent academic citation style (e.g., APA, MLA, Chicago, or IEEE). References should be current, relevant, and properly formatted to reflect the applicant's understanding of the research landscape. Sources may include journal articles, books, reports, and other credible publications supporting the proposed study.

Annexes

Please attach the following supporting documents in the annex section:

1. Curriculum Vitae (CV) – Updated and relevant to the research area
2. Academic Transcripts – Certified copies of undergraduate and/or postgraduate records
3. Degree Certificates – Scanned copies of official certificates
4. Recommendation Letters – If required, from academic or professional referees.
5. Proof of English Proficiency – If applicable
6. Any Other Supporting Documents – Publications, awards, training certificates, or other relevant materials
