Dear Parents of Students in Grades 4 - 7:

January 28, 2016

Each year we hold meetings for parents to communicate the math placement process in grades 5 – 7. Parental feedback indicated that the meetings were very informative and provided a better understanding of the placement process. In an effort to provide ongoing communication with parents, we plan to offer these presentations again this year.

Our presentations will include information on the curricular differences between the standard and accelerated math programs, as well as placement criteria. Students in an accelerated math class one year are not automatically placed in an accelerated math class the following year. Characteristics of successful accelerated math students will also be discussed with parents.

Please join us for one of the meetings as outlined below:

Wednesday, March 2, 2016

6:30-7:30 pm

Blanchard Middle School

Monday, March 7, 2016

6:30-7:30 pm

John A. Crisafulli Elementary School

The presentation will be the same both nights. We hope to see you at one of our meetings.

Sincerely,
Cathy Coughlin
6-12 Math Coordinator

Mary O’Gorman
K-5 Math Coordinator
