

OFFICE MANAGER (MATERNITY COVER)

Background

Vibrant, diverse, and robust civil societies are essential to achieving peace, human rights, and environmental justice. But most of the world lives in countries with threatened civic spaces and global freedom continues to decline year on year.

Courageous people and communities around the world are fighting to make rights and justice universally possible within this context. But they face attacks and reprisals from powerful vested interests. Many pay the ultimate price.

Open Briefing is a vital part of the response. We provide **holistic security support and resources to empower people and communities** to agitate and advocate without fear of attacks and reprisals. We also provide **consultancy and retained support to help high-impact nonprofits and foundations** understand and meet their risk management and duty of care commitments from the grassroots to the global.

Last year, we answered more calls for assistance across more countries than ever before. Our international teams of protection specialists, digital security consultants, and counsellors and psychologists provided nearly 6,000 hours of direct support to civil society organisations and activists under threat in 100 countries.

The scope and scale of the demand for both our pro-bono support and fee-paying services is rapidly and significantly expanding. Key members of our senior leadership team (SLT) require additional support as we grow our organisation to respond. This is where you come in!
