→ THEME →

The goal of the project is to include 25 illustrations of all the girls from the franchise Bandori/BanG Dream! They will be drawn within the theme of sweets and candies (for example, French Macarons, Lollipops, Tiramisu, and the like!)

→ RULES →

- ❖ Artwork must be complete illustrations, with a full complete background. Abstract styles can be included but should not be too stylized since the characters have to be identifiable.
- ❖ This is a PG zine — no explicit blood, gore, nudity, sexual content, or violence. DO NOT include any +18 content.
- ❖ Artists can either choose to draw an existing outfit for the character that looks sweet/cute or design their own outfit based on the theme of the zine. If it is the latter option, please check in with the mods to give approval for the new outfits.
- ❖ Password #1 is ilovebandorigirls
- ❖ Communication is very important, so you must respond when emailed/mentioned. We will only email/mention everyone on wip check days after you are accepted. If you are in the discord, you will be mentioned/emailed twice, then DM'd on your social media account you gave us. You have 2 days after each wip check day to update us on your progress. If there is no update, then you will be kicked out and someone else will replace you regardless of your progress on your piece beforehand. You may update before the check day if you know you will not be able to then, just message/email one of the admins so we know you already checked in. This rule and deadlines are strict as we are dealing with many people and large sums of money.

➤ Accepted artists: If you are in the discord server, you may mute it, EXCEPT for the important notice channel and @ mentions

→ FAQs →

- ❖ **How do I apply?**
 - After reading the entire document, visit our [application](#) page! Please don't apply until you've read everything carefully!
- ❖ **What are the passwords?**
 - The passwords are throughout the doc in order to insure that anyone planning to apply has read the doc fully and is aware of the rules, terms, and commitments that will be coming with joining this zine!
- ❖ **Can I do traditional art for my piece?**
 - It will depend of the quality of your traditional pieces. Make sure your piece will be scanned cleanly/fully and also in full color, while also having the right specifications. When applying, if you send in an example of a traditional piece, you must also show a scanned version so we can make sure it is high quality.
- ❖ **Will the admins be picking the characters first and letting the applicants choose between the remaining ones, or will you be picking the applicants first and then splitting the remaining three between the mods?**
 - 2 of the 3 mods have chosen their characters already. Yukina and Moca are taken, the rest of the characters will be chosen by the applicants. Then the last mod will take the last character left over.
- ❖ **Will there be doubles of characters?**
 - IF there are many applications, we may allow two artists to draw 1 character! We just want to make sure that all the characters are filled out for now and that we have enough interest to have enough funding to make this zine real ! :)
- ❖ **How many artists will be accepted?**
 - 22 artists for now unless there are many applications! We will update the twitter and tumblr with how many we will be accepting after apps are closed.
- ❖ **Who will be drawing the cover page?**
 - We will be deciding that based on who is willing to from the applicants chosen. The cover page will be a horizontal full illustration that stretches to the back page.

- ❖ **Is this a physical or digital zine?**
 - Both! We are planning to have a physical book and PDF for sale!
- ❖ **Will there be merch?**
 - Yes! We are planning for charms and sticker sheets as stated above in specs! We may also create miniprints.
- ❖ **Is this a for-profit or non-profit zine?**
 - This is a for-profit zine. The money from sales will first be used to cover printing and creation of the merch in addition to shipping and packaging expenses. Only after that is paid for, it will go into giving the artist's a free zine, and then split evenly throughout to all the artists.
- ❖ **Do we have to have Bandori examples in our portfolio to apply?**
 - Absolutely not! As long as it's an example of something that is FULLY your own, anything is ok to put in your portfolio! Give us your best samples that shows us what you can do!
- ❖ **Will the artists be getting a physical book too?**
 - Yes! If we are able to, we are hoping to give one free one to all the artists if funding allows, but if not, they will have a discounted price!
- ❖ **Will the artists be able to buy extra books?**
 - We are hoping for that! We are planning to allow artists to buy extra books (max.10) for a small discounted price per book. They may sell it at cons for their own profit.
- ❖ **Will there be a discord server only for the accepted applicants?**
 - Yes as we'd like to keep it neat!
- ❖ **I have more questions!!!**
 - Please ask us via DM on twitter, discord, email, or on tumblr! We will reply asap!

By agreeing to participate in the Sweet Bandori Zine, the admins will be allowed to publish, distribute, edit/transform (only with the artist's permission or for promotional purposes) their finished zine illustration. Contributors of their pieces may not

post the full illustration before permission is granted by the admins. However, small croppings of work in progresses and the final illustrations (about 25% of the piece) are allowed to be posted.
