

A substantial chunk of my research for the past decade has been on making computers more accessible to people with disabilities, yet I have an automatic bias against people with disabilities:

You have completed the Abled - Disabled IAT.

Your Result

Your data suggest a moderate automatic preference for Abled Persons compared to Disabled Persons.

And yes, I am more likely to associate men than women with sciences and engineering:

You have completed the Gender - Science IAT.

Your Result

Your data suggest a moderate association of Male with Science and Female with Liberal Arts compared to Female with Science and Male with Liberal Arts.
