## 1. INTRODUCTION

This Privacy Policy explains how **SplitDay** ("App," "we," "us," "our") collects, uses, stores, and shares your personal information. By using the App, you consent to the practices described in this Privacy Policy.

**Note:** We take your privacy seriously, especially given the sensitive nature of custody and co-parenting data.

---

## 2. INFORMATION WE COLLECT

### 2.1 Information You Provide

- **Account Information:** Name, email address (when signing in via Google or Apple).
- **Custody Data:** Parent names, display names, custody patterns, exchange records, day overrides, shift hours.
- **Financial Data:** Expense amounts, descriptions, categories, vendor names, split ratios, payment status.
- **Receipt Images:** Photos of receipts you upload, which are compressed and may be stored in the cloud.
- **Messages:** In-app messages sent within Households, including sender name, message text, timestamps, and read status.
- **Helper/Contact Data:** Names, relationships, and notes for helpers (babysitters, grandparents, etc.).
- **Holiday Data:** Custom and imported holiday entries.
- **Child Information:** Child name (optional, in budget settings). Custody patterns implicitly relate to children's time with each parent.
- **Preferences:** Calendar view settings, notification preferences, language/locale.

### 2.2 Information Collected Automatically

- **Device Information:** Device type (iOS/Android), operating system version, app version.
- **Usage Analytics:** App opens, feature usage, screen views, errors (via Firebase Analytics).
- **Crash Reports:** Crash logs, stack traces, device state at time of crash (via Firebase Crashlytics).
- **Advertising Identifiers:** Device advertising ID (IDFA on iOS, GAID on

Android), subject to your consent.

- **Push Notification Tokens:** Firebase Cloud Messaging tokens for delivering notifications.
- **Subscription Status:** Purchase history and subscription state (via RevenueCat).

## 2.3 Information Processed by AI

When you use AI-powered features:

- **Receipt Scanning:** Receipt images are sent to **Google Gemini** for text extraction. Images are processed in real-time and are subject to Google's data handling policies.
- **Tone Analysis:** Message text drafts are sent to **Google Gemini** for tone assessment. Message content is processed in real-time.
