

## Female compatibility list

Clothes from models sharing the same body and skeleton are compatible with each other. Some clothes might need minor tweaks.

<https://discord.gg/ANGWGtJ3fZ>

I am introducing to my new models the UE5 Skeleton, and for my older models I am adding UE5 Skeleton support over time.

### **Models based on the UE5 Skeleton:**

Cyberpunk Street Fighter  
Cyberpunk Ninja Girl Vex  
Stellar Girl Celeste  
Stellar Girl Miyoko  
Stellar Girl Astra  
Stellar Trooper (Girl)  
Stellar Rogue (Girl)  
Death Archer Morgana  
Demon Hunter Nyx  
Dark Knight Calista  
MMORPG Warriors  
Rapid Fire Military Pack  
Gym Girls  
Beach Girls (Unity) (UE soon)  
Techwear Girls (soon)

### **Models that have an UE4 Skeleton:**

Demon Hunter Nyx  
Dark Knight Calista  
Gym Girls  
Stellar Girl Celeste  
Stellar Girl Miyoko  
Stellar Girl Astra  
Stellar Trooper (Girl)  
Stellar Rogue (Girl)  
Kitsune Yuna  
Cheng Yi  
Samurai Girl Tomoe  
Shinobi Girl Akane  
Jua Lee, Girl in Qipao/Cheongsam Dress  
Dress Up Maids  
Dryad Girl Fawnia  
Priestess Girl  
K-POP SERIES: Sun  
K-POP SERIES: Mina  
K-POP SERIES: Ryu  
K-POP SERIES: Lola

Gamer Girl  
Feral Girl Roca  
Succubus Lauren  
Succubus Lucia  
Succubus Lily  
Beach Girls  
Cosmo Bunny Girl  
Cosmo Fox Girl  
Cosmo Cat Girl  
Cosmo Dragon Girl  
Cosmo Succubus Girl  
Mechanic Girl  
Techwear Girls  
Vampire Girl  
Medieval Girl  
New Year Girls  
Egypt Girl

**Not compatible at all:**

Survival Man  
Survival Girl  
Swordsman Girl...

**The old (legacy) body is used for:**

Angelica  
Dragon Girl  
Shaman Girl  
Assassin Girl  
Spider Queen  
Elven Archer  
Mermaid  
Maid  
School Girls  
Nun  
Kitsune  
Bunny Girl  
Archer Girl  
Witch  
Angel Girl  
Lady Vamp (not Vampire Girl!)  
Succubus (not Succubus Lily/Lucia!)

All the other (new) models are released with the UE5 Skeleton. The clothes from them are also interchangeable between each other. Everything should work perfectly, however, in some cases the breast size may differ.

For any help with that case, please contact me through E-Mail:  
[idadaber3d@gmail.com](mailto:idadaber3d@gmail.com).  
I will help you.
