Summary:

Transformative item to make the player character more like a fusata. Includes a drop event for the Glacial Rift. Could add this to Senja's and Gianna's Caravan rotating inventory. They seem the most likely to have traded goods from far lands. Maybe Ranna's as well, not sure?

Item Info:

Stats

Max Stacks: 9

Short name: Miian Mango

Long Name: Miian Mango

Description: A peculiarly bright species of mango, mostly light yellowish-orange that fades into a light pink coloration at the very top area with the stem.

Due to their radiant appearance they are affectionately referred to as *<i>heavens' fruit</i>* by many simian-likes. It is theorized that their bright color comes from how much sunlight they are able to receive due to only growing at the highest points of certain tall trees. Due to the precarious process to gather these fruits, at their ripest, they are treated as delicacies for special occasions.

Value: 100 EC I wager?

Use Text

Bit by bit, you bite into the succulent miian mango, with each one tasting sweeter than the last in your [pc.mouth], swallowing every two bites or so. There may be some truth to that *<i>heaven's fruit</i>* stuff this mango is known for. Sweet, but not overbearing, and refreshing like a brisk spring morning. The taste leaves you wanting more and before you know it, you've eaten the fruit down to the core. You feel a rumble in your stomach demanding more after you've finished

the mango, and you wait impatiently for any transformations to take effect so you can quickly try another one.

Transformations:

Notes:

Differences from the Human TF:

Shorter heights

Addition of body fur

Adding a tail

Eye colors: green, brown, hazel

Raw Effects

// height changes

// if height is > 68" or 5'8", decrease height down to 68"

// use standard height change TF text

// if height is < 64" or 5'4", increase height up to 64"

// use standard height change TF text

// thickness changes

// decrease thickness down to 40 if thicker than that

// use standard thickness decrease text

// increase thickness up to 20 if thinner than that

// use standard thickness increase text

Face

// eye changes

// if eye color is not green, brown, or hazel randomly change to one of those

// use standard eye color change text, with colors {green|brown|hazel}

// if eye type is not human, change to human and remove tags

// reuse normal eye TF text

// fusata face

// if face type is not human and/or face tag is not refined, change to both of those
// reuse face TF text from Wyld Wine
// If face does not have Maned tag, add Maned tag. For having fur on the shoulders and neck.

// femininity changes

// increase femininity until 80 if gender pref is female
// reuse standard fem increase text

// decrease femininity until 20 if gender pref is male
// reuse standard fem decrease text

Head

// Fusata ear tfs

// if ear type not already human, transform to human ears and remove all ear tags.

// if already have human ears, grow ears to max of 2"

You feel your ears tingling, then a weird inflating sensation on both sides of your head. The flesh of your ears lengthen and blow out, rounding out nicely, before subsiding after a few seconds. When you reach up to check, you notice that **you now have bigger and rounder ears!**

// remove nonhuman head tfs

// remove antennae
// reuse antennae loss text from Root of Man

// remove horns
// reuse horn removal text from Root of Man

// fusata hair tfs

// if character has hair, but their hair isn't hair, change hair type to hair and remove all tags
// reuse normal hair change TF text

// if character has hair that does not match fur color; blonde, brown, gray, white, or black, change to match fur color
// reuse standard hair color text, with colors {blonde|brown|gray|white|black}
// grow hair to max length of 5

Limbs

// remove nonhuman limb tfs

// if arm type not human, change arm type to human and add Furred tags
// reuse human arm TF text from Carrot Cumpcake

// if leg type not human, change leg type to human and add Furred tags
// reuse human leg TF text from Carrot Cumpcake

Tail

// fusata tail tfs

// if tail type not already monkey, transform to monkey tail and remove all ear tags.

// if character has no tail, grow 1 tail, change type to monkey tail, and add Furred, Prehensile, and Long tags

Body

// fusata skin tfs

// if skin color not pale, cream, tan, bronze, brown, olive, or dark, randomly change to one of those

A balmy tingle spreads down your arms, rapidly covering your whole body. You shiver at the warm sensation, but it subsides after several seconds.

// reuse pale, bronze and dark skin color TF text from Root of Man

// reuse cream skin color TF text from Frosleaf

// reuse brown, olive, tan skin color TF text from Ashen Leaf

// if skin type is not skin, and/or skin tag is not smooth, change to both of those

// reuse smooth skin TF text from Wyld Wine

// if does not have the furred tag, add the Furred tag

// change fur color fur to either blonde, brown, gray, white, or black

// reuse standard fur color text, with colors {blonde|brown|gray|white|black}

Cock

// human cock tf

// if character has a real cock, and cock type is not human, change cock to human and remove tags

// standard human cock TF text

// half-sexed cock tfs

// if gender pref female, no Well Hung perk, and has a real cock, grow cock until 4"

// standard cock growth text

// male cock tfs

// if gender pref male, no Well Hung perk, and has a real cock, grow cock until 7"

// standard cock growth text

Milk

// None

Balls

// fusata ball pouches

// if character has balls, reduce size until 4

// use standard ball shrink TF text

// if character has a real cock and no balls, add smol balls

// reuse initial ball growth TF text from blue egg+chestnut

Breasts

// fusata smaller breasts

// if character has a vag, gender pref is female, and not Buxom, grow breasts until B

// standard breast growth text

// if character has a vag, gender pref is female, and is Buxom, grow breasts until C

// standard breast growth text

// half-sexed breasts

// if character has no vag, gender pref is female, and not Buxom, grow breasts until A

// standard breast growth text

// if character has no vag, gender pref is female, and is Buxom, grow breasts until B

// standard breast growth text

Butt

// I'm thinking, give them the Bubble Butt perk because why not.

Pussy

// human vagina tf

// if character has a vag and vag type is not human, change vag type to human

// reuse human vag TF text from Wyld Wine

Effluvia

// None

Feracity

// None

New Descriptors

Not sure how this one works, just going off of a copied template but I would guess either "monkey" or "simian" I guess?
