

Update: On April 29, a judge dismissed the claims of the candidates who filed a lawsuit on the basis of gender discrimination. But he dismissed the case on procedural grounds only -- he was sympathetic to the issues raised and put the party on notice by encouraging the plaintiffs to refile their constitutional claims if the problem is not addressed. We remain supportive of the non-binary, genderfluid, genderqueer, and transgender candidates who ran for County Committee and look forward to working together to see all people, of all genders, be able to serve as active members of the Brooklyn Democratic Party.

While this stage of the legal challenge is over, we encourage you to sign the statement in support of the brave candidates who were disqualified and as a call for the Brooklyn Democratic Party to #IncludeAllGenders.

In Support of Non-Binary, Genderfluid, Genderqueer, and Transgender County Committee Candidates

On April 22, seven non-binary, genderfluid, genderqueer, and transgender candidates who are running for seats on Brooklyn's Democratic County Committee were disqualified by the Board of Elections. This disqualification prevents them from serving as voting members of the Brooklyn Democratic Party.

The County Committee has over 5,000 seats and the Brooklyn Democratic Party's rules require every one of them to be designated as either "male" or "female," categorically excluding non-binary candidates. Additionally, transgender people who do not have the resources to match their sex and gender identity with their legal markers participate in this system at great risk.

These candidates ran as "County Committee member" without designating "male" or "female" for their gender and as a result are being denied their opportunity to appear on the ballot. The candidates now have an opportunity to defend their right to ballot access in court, contesting their disqualification and challenging rules and laws that deny ballot access to non-binary individuals.

We support these candidates and believe they should be allowed to serve as active members of Brooklyn's County Committee.

Rules that designate party positions by gender were originally passed to increase women's participation in politics, a goal we share to this day. **Currently, more women than men serve on Brooklyn's Democratic County Committee. In Manhattan, where seats are not designated by gender, over 60% of the elected Democratic County Committee members are registered as female.** We don't take this progress for granted and will continue to push for increased women's representation at all levels of elected office. There are many potential paths to a representative and accessible Democratic Party, and we look forward to working with allies

on rules or laws to protect these values. But we cannot stand by while people are being discriminated against today.

Including Brooklynites of all gender identities on County Committee opens the door to a more expansive democratic system in Brooklyn. We're proud to stand alongside these candidates and look forward to Brooklyn setting the standard for inclusion, starting at the ground floor of the Democratic Party.

In solidarity,
