

What is Doctor Wendy?

It is a “just-chatting” stream segment where Wendy gives you advice about **friendships + relationships!**

If you have questions regarding clinical depression or “what do I do with my life” I suggest either seeing a trained professional or to hold that thought. **I am not a trained or a licensed professional. I cannot give medical advice. I also cannot tell you what to do with your life :(**

I can only give advice for topics related to friendships or relationships!

I probably won't be able to get through every single entry so please don't feel too disappointed if I don't address yours or don't get to yours. I wish I could answer everyone's :(

Also if I feel that a previous question I've answered or advised touches on other entries, I won't answer similar type situations multiple times.
