

PRESIDENT' S REPORT GAMMA CHAPTER

Members were excited to see the plan for the year and an introduction of the new project at our Burley Jr. High. Of course they made sure we were still having our quarter auction!!

The new project was helping to supply items for a Christmas store in which a student picked by the admin spent time choosing gifts for his/her family. Gamma members along with Jr. High teachers were with the students to help in choosing and wrapping the gifts. Later they would be delivered to their homes right before Christmas. Thirty families were given an incredible Christmas.

Something new this year was decided by the presidency: We attended “WICKED” and tried to bring someone interested in Gamma. From this we did have 3 new members join!!

January was extremely busy making fleece blankets. Twenty-eight were delivered to the Humanitarian Center in Rupert. They were then given to a school in the Twin/Jerome area. This last winter many were asking for blankets.

The meeting at the Minidoka Fairgrounds introduced a new board game teachers could use with small groups in a classroom. The game tracks planting, pests, watering schedules, fertilizer, and harvest of a crop. Who knew? It takes all this math to farm.

Honoring our founders, celebrating our society’s birthday, completing business with discussions on rules and budget made for one full meeting.

We celebrated the year with a field trip to the Flower Pot airbnb and a craft project using dried flowers.

As a President, I am grateful for my Vice Presidents! They are incredible and dependable. I am beginning to recognize names in the State and look forward to attending convention to receive any help I can get. We've tried so hard to get people to come to any meetings outside our own chapter. Our chapter loves staying home. This year I decided we were going to try to take care of our own members, making sure they were contacted and making sure they felt important at the meetings. It turned out that 3 members had knee surgery, 2 members are dealing with cancer, 1 member is still in recovery from a serious wreck, 1 member slipped on a wet gym floor and spent a month in the hospital. Well, the rest of us are going to funerals, seeing newborns, visiting grandkids, going to games, watching plays, helping with kids and trying to stay out of the obituaries. Yes! We are still going and trying to let people know, "We Are Delta Kappa Gamma!" with our examples of service in our community.
